

The Idea of media editing to me is the ability to show a creative process that takes different media mediums. This allows for an observer to understand something in a more enjoyable manner. This idea makes society enjoy different forms of art. It makes different ideas a little simpler to

understand. This picture takes a saying that shows society that trading the same thing leaves you with the original item that you had. This picture makes it easier to understand the idea behind the quote. The process takes a simple media element such as a picture and adds a certain quality of

If you have an apple and I have an apple and we exchange these apples then you and I will still each have one apple.

understanding through the quote. Pictures can also be used to express a person's individuality. The following shows my personal love for driving. It takes a couple of images and puts a quote that can express the idea behind the images. The car on an open road signifies the life that I

live. Care free living with your car as a way to escape from reality and go into a sort of fantasy land. Images, however, are

form of social media that is strictly media based.

The idea behind media editing is to take different mediums and combine them into a form of art that allows the viewer to know a little bit about themselves. It opens different channels in the brain and allows thought much deeper than the average human thought. This can make life much more enjoyable for all. The process is to take ones individual creative sections of their brains and applies them into a form of art that gives society something that they can enjoy. It is a vital part of life and is an art form that should not be forgotten. I really enjoyed learning the different varieties of media art.

I would Like to thank Professor Kelliher as well as Kim for a great semester. Thanks again!
